Portland: 11th, 12th, 13th Sept. '09

Booking: www.holistichouseplans.com **Price:** \$600

Foundation Workshop

This workshop is designed to present a thorough grounding in the science and art of Sacred Geometry, as well as practical applications and exercises. Once the foundation is established, we will take this information to a deeper level through applying sacred geometry to all aspects of the human experience.

Areas to be covered include design, architecture, healing, vibration, harmonic resonance, the workings and movement of the human body, sun-earth-brain-heart coherence and how to create truly sustainable environments and communities. Visit the website for details.

"Very enjoyable, incredibly informative, superb educator, makes information highly accessible. Teaching using multiple approaches, engaging listening, drawing collaboration, tactile, body movement. Effectively embedded his sacred knowledge in each and everyone of us. What a gift."

Sally Grisedale, UK

"I am looking forward to continuing playing in this area to see where I go with it. I will be applying it right away to a client's play yard."

Colleen Brand, US Interior Designer

"The wonderfulness of the information. I need more!"

Vic Ketis, Australia
